

Why should my dog take fresh food?

- **Fresh food has many nutrients** that you can't obtain naturally in other types of food.
- Feeding fresh food makes your dogs' fur and skin **lush and healthy**.
- Feeding fresh food makes your dogs' fur **shine with good health!**
- Feeding fresh food means you minus all the salt, sugar, flavoring, additives and other preservatives added (unknowingly?) into your dog's diet.
- Feeding fresh food means you **lower greatly** the risk of your dog developing skin allergies, excessive shedding, dental and digestive - kidney, liver and stomach problems.
- Feeding fresh food means **variety** - no more same boring kibbles or canned food everyday!

Too tired to cook each day for your dog?

Sign up for a week's trial of our tingkat meals for doggies!
